*In-person first impressions are extinct. Today, you need to put your best foot forward before stepping into the room.*

# MAKEUP AND STYLING

---

A good photograph is created long before we pick up the camera. That is why all our sessions include hair, makeup and styling, for both women and men.

Do you prefer a natural look? No problem! We offer fresh-face makeover that will brighten your eyes and skin under the studio lights. We will talk about your preferences before your session.

## Add an outdoor set

---

Take advantage of scenic Newport County with an option to go on-location!

Whether you want to hit the beach or be photographed against an urban landscape, we can add it to your shoot.

There is no additional charge to add an on-location set, with purchase of a collection.
